

Rundschau Area Frankfurt

Facts & Figures

Client: STRABAG Real Estate GmbH

Acquisition: design competition

Gross floor area: 24.000 sqm

Use: Business, living, office, hotel

Start Design: January 2015

Architect: CROSS Architecture / Bentheim Crouwel GmbH

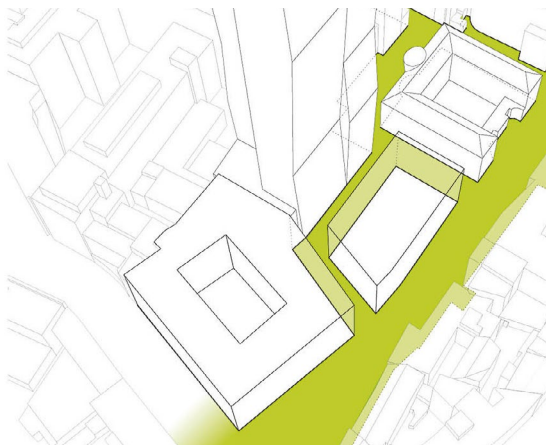

Impressions

The precise positioning of the buildings and the contours of the internal façades create a cityscape staggered in depth, which avoids rear sides and allows new connections to neighbouring buildings. The prismatic figure of the southern building brings a maximum amount of daylight into the street and creates an exceptional, identity-generating urban space.

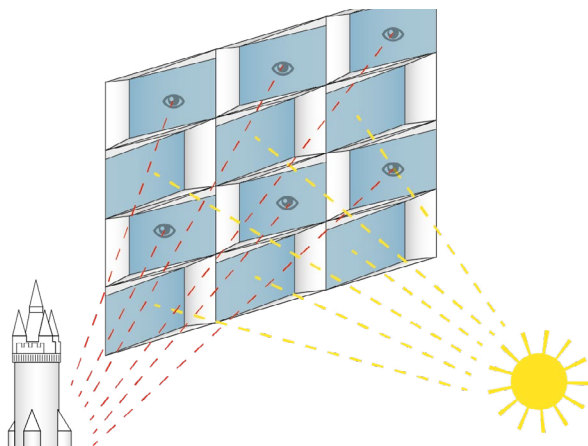

Residential building — Große Eschenheimer Straße

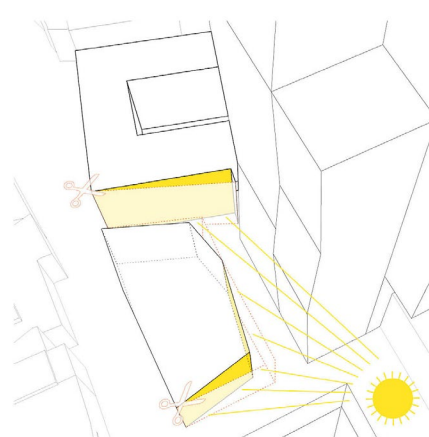

Flowing — Urban space

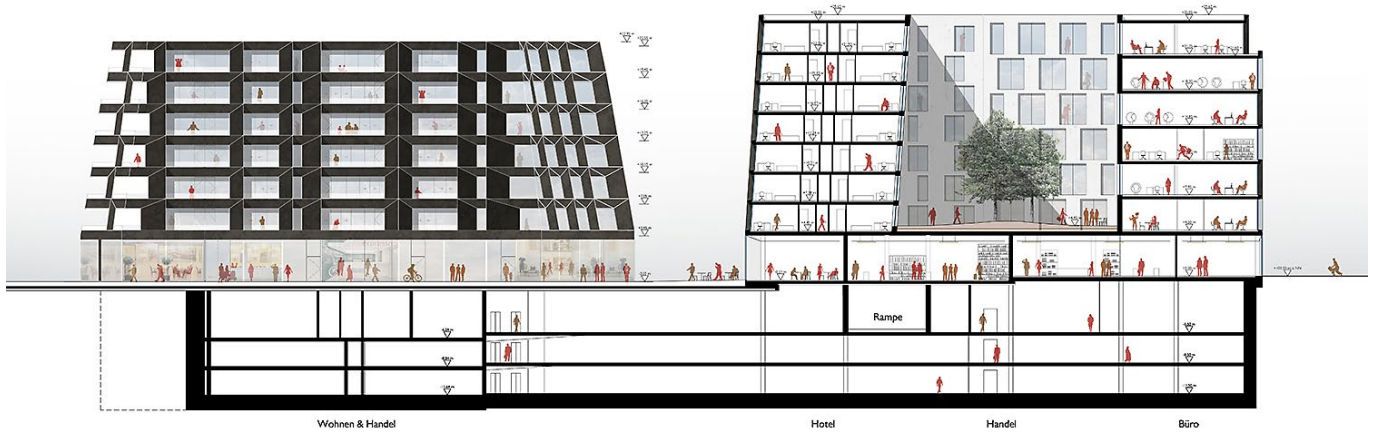

Diverse — Use

Molding — Illumination and views

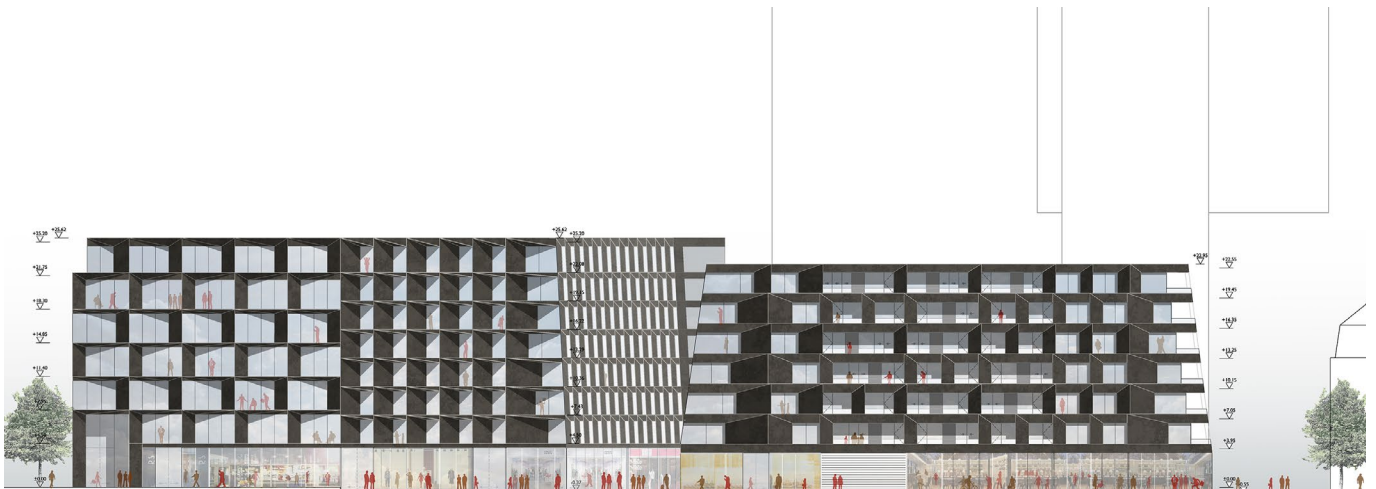

Daylight — Orientation

Elevation and Section — Residential and office building

Floor plan — Retail

Elevation — Ensemble
